

Panel GP10 with pigtail and installations kit - GigaPATCH™

GigaPatch™ GP10 panel, assembled with pigtails and installation kit, is designed for splicing cables with loose cladding. The panel can be supplied with pigtails in both MM and SM terminated with the most common connector types. Partially equipped panels is delivered with installed dust caps for the remaining adapter holes. The assembly and polish of the connector are carried out under the i.hht. standard, and with the last generation of test- and production tools. The cables and connectors is tested 100%, both visually, for RL (reflected signal) and IL (attenuation).

- For mounting in 19" racks / cabinets
- Stable and high-quality
- SM (OS1) ITU-T G.652D
- MM OM1, OM2, OM3
- Factory polished connector
- Visual inspection with 600x magnification of 100% of connector
- Control of the connector geometry, Radius, fibre Height, Apex Offset, Ferrule and fibre closure
- Output is certified i.hht ISO9001: 2002 and ISO14001: 2004
